ABOUT MYSELF

Experienced **Flutter Developer** with over 2 **years of hands-on professional experience** delivering scalable, production-ready mobile applications. Strong expertise in **Flutter** and **Dart**, with a solid background in **clean architecture**, advanced **state management** (BLoC, Cubit, GetX), and performance optimization.

Skilled in **integrating real-time services** such as **live audio and video streaming** and **WebSocket-based communication**, ensuring reliable and responsive user experiences. Applies **mobile application security best practices**, including **secure authentication flows**, **data protection**, and **code security measures**.

Familiar with implementing **API security** using token-based authentication (JWT), **secure local storage**, **HTTPS/TLS communication**, and **code obfuscation** to reduce the risk of reverse engineering. Experienced in handling permissions safely, validating user input, and collaborating closely with backend teams to align on security requirements. Currently in the **final year of a B.Sc. in Informatics Engineering**

EDUCATION & TRAINING

Bachelor in Informatics Engineering

Tishreen University [01/08/2020 - Current]

City: Lattakia | **Country:** Syria

Level in EQF: 6

- Software development techniques, mobile app development with Flutter, web applications.
- Computer architecture, algorithms, data structures, database management, networking principles.
- Programming best practices, debugging, version control (Git), software testing, UI/UX design.
- Agile methodologies, project management, software deployment, cybersecurity basics, digital ethics.

WORK EXPERIENCE

Self-employed / Freelance - Syria, Lattakia

Flutter Developer (Freelance, Part-time)

[01/03/2023 - Current]

- Developed and deployed **cross-platform mobile applications** (Android/iOS) using Flutter.
- Integrated **real-time features** with WebSockets for chat, notifications, and updates.
- Applied **code obfuscation and security techniques** to protect apps from reverse engineering.
- Implemented **clean architecture** using BLoC and Cubit for maintainable, scalable code.
- Optimized **app performance**, reducing crash rates and improving load times.
- Delivered multiple apps, some published on **Google Play Store**, including:
 - **Seen** – Educational quiz app with interactive quizzes and leaderboards.
 - **Souq MyCar** – Mobile app for buying and selling cars online.
 - **Treasure Island** – Live streaming quiz competition platform.

- **One Store** – E-commerce application for online shopping.
- **Pets Care App** – Assists pet owners with appointments, meal reminders, custom activities, and a community for sharing tips.
- **Dental Flow** – Desktop app for clinic organization and management.
- **Painting Store** – Landing page website for a painting store.
- **Gen AI App** – Application leveraging AI for content generation and intelligent features.

Currently in development:

- **Live Streaming App** – Audio Rooms & Video Rooms for real-time interaction.
- **Library App** – Digital library management system.
- **Cosmetic Online Store** – E-commerce platform for cosmetics products.

Stivalo Co. - Syria, Lattakia

Team Leader Flutter Developer

[01/05/2024 - 02/04/2025]

- Led a small team to **maintain and enhance** two major production apps: **Spicy Offers** and **Spicy Offers Establishment**
- Fixed critical bugs and improved app stability, resulting in a **20% reduction in crash rates**.
- Successfully **published updated versions** to Google Play, improving app ratings.
- Coordinated with **designers (Figma)** and backend teams to ensure **seamless feature rollouts**.

ProgRhyming - Syria, Lattakia

Junior Flutter Developer

[01/11/2022 - 01/03/2023]

- Assisted in analyzing **user requirements** and designing feasible technical solutions.
- Implemented new features in existing mobile applications using **Flutter** and **Firebase**.
- Worked on **bug fixing, performance enhancements, and UI improvements** to improve overall user experience

SKILLS

Flutter, Dart | Firebase (Auth, Firestore, Realtime DB, Storage) | REST APIs, WebSockets | BLoC, Cubit, GetX, Clean Architecture | Git, CI/CD (GitLab, GitHub) | Security: JWT, HTTPS, Obfuscation | Node.js e NPM | work as a team | API Integration & Testing: Postman, Swagger | Testing & Debugging: Unit Testing, Debugging Tools | AI-Assisted Development Tools

LANGUAGE SKILLS

Mother tongue(s): Arabic

English

LISTENING: C1 **READING:** C1 **WRITING:** C1

SPOKEN PRODUCTION: C1

SPOKEN INTERACTION: C1

CORE COMPETENCIES

KEY STRENGTHS

- Strong attention to detail and ability to deliver pixel-perfect UI from Figma designs.
- Ability to explain technical concepts simply to cross-functional teams.

- Strong debugging and problem-solving skills.
- Experience leading and mentoring junior developers.
- Passion for continuous learning and adapting to new technologies.
- Leveraging AI tools to increase development speed, reduce bugs, and enhance overall code quality.
